Monthly Index *of* Russian Accessions

Volume 14, No. 7 October 1961

THE LIBRARY OF CONGRESS
WASHINGTON : 1961

INTRODUCTORY NOTE

The MONTHLY INDEX OF RUSSIAN ACCESSIONS is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included. However, publications issued in the languages of the U. S. S. R. and in countries of Eastern Europe are not included, since these are covered by the *East European Accessions Index*.

The MONTHLY INDEX consists of three parts. Part A lists monographic literature, but to accessions published earlier than 1956 are included. To facilitate the use of the INDEX by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by an English translation in bracket.

Part B lists Russian periodicals received, but excludes those not primarily devoted to science. Certain Soviet periodicals are being translated into English in cover-to-cover and publication regularly in translation in the United States and other English-speaking countries. Whenever such translated periodicals, their publishers, subscription prices, etc., are given at the end of each issue of the *Monthly Index*. In Part B such periodicals are indicated by two asterisks before the periodical name.

Part C provides subject analysis of the monographic titles listed in Part A and of the articles appearing in the periodicals enumerated in the *List of Periodicals Currently Received* [illegible] at the beginning of Part C. The number and letter in parenthesis following each subject class indicate the class and subclass in which the periodical appears in Part B. For the convenience of readers desiring to examine only monographs or periodical articles, the monographic titles are printed in slightly heavier type than the periodical titles. The titles of monographs are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only.

Sample title: Electroaction of the brain in glaucoma. [N. N. Lvovich, G. M. Neĭdgardt. Vliianie [illegible] mozga pri [illegible]].

Explanation: An article with title given above in English translation, written by [illegible] G. M. Neĭdgardt, will be found in the [illegible] issue of [illegible] *Glaukoma*, vol. 20, no. 5, pages [illegible].

A cumulative list of periodicals included in the current volume appears [illegible] volume. The list is arranged by subject; the symbol of [illegible] Library of Congress, known to have the set of each periodical, follows each title.

Except in Part C, the material is divided into [illegible] subject classes and arranged alphabetically within each class. In addition, for the convenience of the reader, the material listed in Part B is subdivided within each subject class into several subclasses. All entries are transliterated according to the system used by the Library of Congress, except that ligatures are omitted. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. [illegible] representing other libraries indicate when items are available in those libraries. Consult [illegible] a symbol indicate that at the time of receipt the material was available in another library but [illegible] in the Library of Congress.

Cumulative author, subject, and periodical location indexes to the first four volumes of the MONTHLY INDEX are available as separate publications. Beginning with Volume 5, [illegible] monograph, and a periodical location index for the entire volume are [illegible] appendixes to the first two issues of the following volume.

Orders for microfilm or photostat copies of the listed items that are in the collections of the Library of Congress may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY INDEX OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price of single copies varies; subscription price, $12.00 a year domestic, $18.00 a year foreign. Price of Cumulative Index to Volumes 1-3, $1.50; to Volume 4, $0.50.
